

St. Mary's College

Vision

We aspire to be an institution that is acclaimed globally for comprehensive education and exceptional student experience

The St. Mary's Educational Society established St. Mary's Junior College in the year 1982, in Basheerbagh. Within a short span of time the college became the first choice for students in Hyderabad. This led to the expansion of the college giving way to the second campus.

In 1995, the St. Mary's College catered to the academic needs of students in intermediate, and in the year 2002, it branched out to Under graduation as well. The foundation of this college was to provide guidance, identify talent, enhance potential and create world changers.

St. Mary's College was recognized as one of the top three co-educational institutions in Hyderabad and was referred to as the most "Happening" college in the twin cities. We take pride in playing an important role in paving the way to success for all our students – future that enables them to pursue their dreams, no matter how unattainable they may seem.

At St. Mary's College, we believe that no desire is too ambitious to fulfill, no goal too big to achieve and no aspiration too impossible to accomplish. Our highly qualified and well-experienced faculty put in every effort to create an environment for the students to

engage in dialogue, to discuss current global concerns and equip them to face a competitive and challenging world.

Embracing the 360-degree evolution, St. Mary's believes in nurturing its students holistically. This means that our vision for our students goes above and beyond academic excellence. We encourage our students to think critically and creatively, equip them to reason soundly and to look beyond just adding a qualification to their résumé. A St. Mary's student is well rounded and equipped to face the professional world head-on. Excellence in every field is our desire for our students. This is seen in personalities such as Sania Mirza, Ashwini Ponnappa, P Gopichand, VVS Laxman, Ram Charan, who are some of our key alumni.

Over the years St. Mary's College has grown in strength and reputation. The strong precedence of students consistently securing state ranks in IPE, EAMCET, IIT and securing admissions in BITS (PILANI) and other reputed institutions in India and as well as abroad are added feathers to the hat.

Today, this "most happening college" has gained recognition for its advanced methods of teaching as well as catering to the academic and extra-curricular needs of the students. The management leaves no stone unturned to give the best for the students.

Fortune 500 companies have visited the college to hire from campus, through the placement cell. In less than two years of the placement cell in being the college has churned out at least 70% employable graduates of those registered with the cell.

When you join St. Mary's College, you are not just joining an educational institution. You are joining a movement – a movement that will change the world, one student at a time.

Remember, the future, it begins here!

COLLEGE SONG

The zest of a young mind

Speaks of aspirations,

Dreams to realize and cheer,

Look nowhere, the future begins here!

St. Mary's is the place where

We walk with heads held high,

We march ahead in His name,

For we know, our future begins here!

Sanctified in faithful restoration,

Stands our glorious institution.

Our dreams and goals seem so near,

Now we know, our future begins here!

O' gracious Master,

We trust in Thee alone.

We're grateful for all that You give,

Oh! It's for sure, our future begins here!

Our future's in Your caring hands,

The lives we want to live,

We know You're always near,

St. Mary's you're so dear, our future begins here!

Our future begins here! Our future begins here!

Lyrics: Tripthi Alluri

Music: Rachel Chadalavada
